

GRIFFITH PARK'S **Wildlife** **NEED YOUR HELP!**

Help Griffith Park Recover From the Fire

Habitat Restoration **Volunteers Needed Today**

On Tuesdays and Thursdays this Spring, volunteers will be removing invasive plants quickly overgrowing the burn area*. These invasives are competing with the native plants for light, water, and nutrients. The wildlife of Griffith Park need you to help the native plants that provide their food, water and shelter.

Please contact:
Andrea Epstein, Volunteer Coordinator
Department of Recreation and Parks
