

Finding A Hidden Rainbow

Everywhere you look in nature you can find a rainbow! Look around and see the rainbow at your park. Draw objects that match the color in each box. Be as creative as you want! If you need a hint there are many different things you can draw. They do not need to be plants, they can be animals, insects, and the weather around you.

Take photos of the nature you are drawing and post them to [inaturalist!](https://www.inaturalist.org)
