

What Can you Find at your park?

When you are exploring your park make sure to take photos of all the nature you see to upload to [iNaturalist](#)

Which Park are you at? _____

What is the weather like? Sunny, Cloudy, Rainy? _____

Check off things that your park has

A picnic table ready for someone to eat lunch at.	Birds chirping in the trees making beautiful sounds that I can hear.	Trees making shade so I can sit and enjoy all that is around me.
Ants crawling all over the ground!	Flowers sprouting out from the ground.	Squirrels climb from tree to tree looking for food to eat.
A jungle gym so I can learn how to climb like the squirrels!	A pathway or trail that lets everyone walk through the park.	A pond or lake that animals can live in.
Bushes that animals could live in.	Rocks are sitting and waiting to be looked at.	Pollinators fly from plant to plant collecting pollen to eat.

What is something special at your park?

My Park has...
